

Transportation Discipline Referral System

The DSC Transportation Discipline Referral System enables district transportation offices to track and report on student behavior incidents that occur on the buses. Designed for maximum flexibility, district administrators can define the types of behaviors your district would like to track such as *Not Seated*, *Body Parts out of the Window*, *Exiting at Wrong Stop*, etc. Helpful graphs and reports also allow the transportation office to report students with frequent behavior problems to the schools and district in order to effect positive behavior changes in those students.
